

Parker® Nitrogen Tire Inflator TireSaver® 018 Wand

Manual Nitrogen Tire Inflator

Revolutionary Design

A revolutionary design and engineering project has led to a truly unique nitrogen tire inflation tool. This tool can be used to inflate the tires of cars, vans, trailers and motorcycles. Parker has developed the innovative TireSaver 018; a robust, lightweight, mobile, nitrogen tire inflator for the automotive industry, with low investment costs and an undeniably high sales potential and profit margin.

Click, fill, earn money!

This workshop tool can be connected to a compressor and automatically generates nitrogen from compressed air: simple and, above all, inexpensive. This means that your investment will pay for itself in no time at all. The Tire-Saver is fitted with an exchangeable membrane cartridge that will serve for thousands of tire inflations.

Product Benefits:

- High profit margin
